

Aspen Student Health Partnership

▶ PARTNER SURVEY RESULTS ◀

2009 - 2010

Year 11

Results of ASHP Partner Survey (N = 9)

Survey Statements		Strongly Agree	Agree	Disagree	Strongly Disagree						
1.	For students who need more than one student health service, the various services are well coordinated.		9								
		100%									
2.	Partners plan collaboratively.	3	5	1							
		89%		11%							
3.	Partners make decisions collaboratively.	3	5	1							
		89%		11%							
4.	Partner funded and Student Health funded services are well integrated.	2	6		1						
		89%		11%							
5.	The student health services improve students' abilities to be successful in their school program.	7	2								
		100%									
6.	Overall, I would rank my satisfaction as a partner on a 10-point scale as follows:										
	f =							6	1	1	
		1	2	3	4	5	6	7	8	9	10
		Low		Avg. = 8.1						high	

Comments:

- I am glad to hear that Mental Health will be represented at the table next year. (f =2)
- There is still confusion over baseline and SHP services. I believe this is due to the absence or lack of some baseline services that have not been filled. (f =2)
- My dissatisfaction with Student Health is not related to our partners or the value of the services, but at the provincial level and the lack of increased funding to cope with inflation.
- Ample opportunity to give input and feedback.
- The success of our Partnership should, in part, be credited to the great work of our consultant and his great work and support with our chairs/co-chairs.
- Our students have benefitted greatly from the services provided.
- We need to keep the emotional/behavioural supports up for schools – very important.
- Filling job postings is a high priority when vacant.
- There is generally effort and desire to enhance service integration. With persistence and continued effort between partners I do think that this area of concern can be better addressed.
